

Bacterial DNA

Extraction Kits

Your Optimal Choice
purify bacterial nucleic acid
for Microbiome Testing!

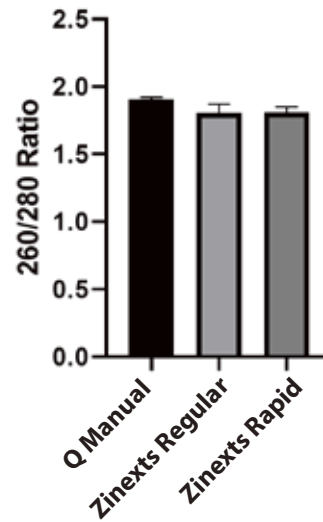

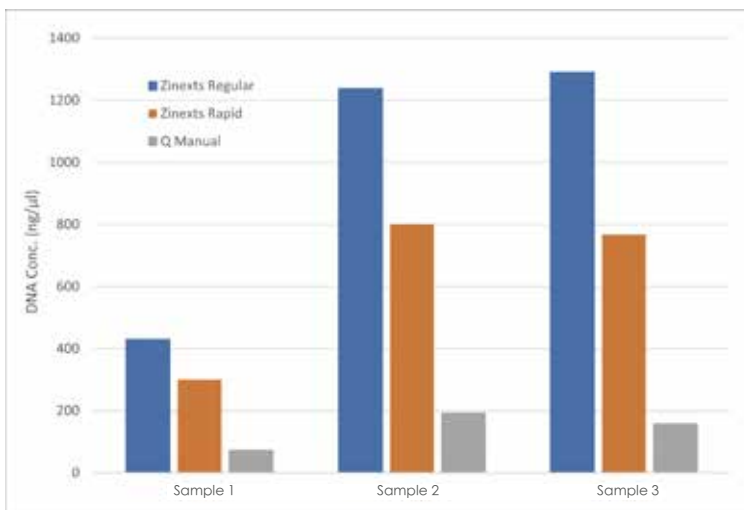

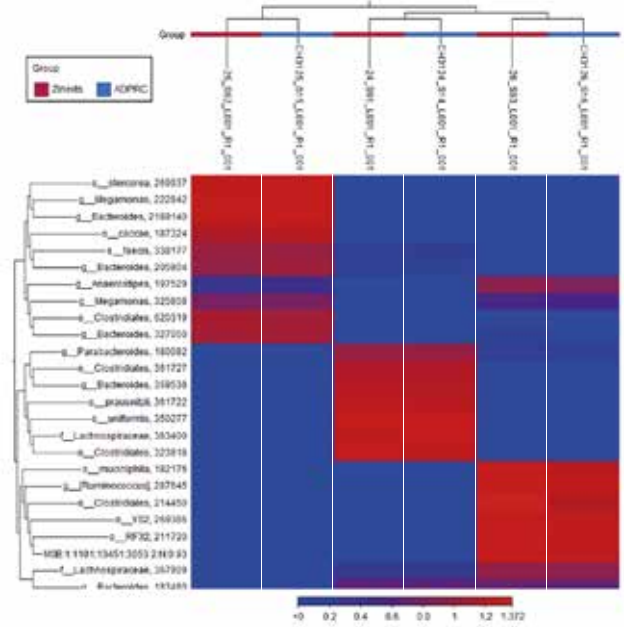

Unlock the full potential of your precious samples:

- Ⓜ Optimal & fast pre-treatment with minimal hands-on time
- Ⓜ Efficient & complete lysis (from complex samples)
- Ⓜ Access to high-quality DNA in < 30 mins for your downstream applications

Let us prove it !

We extracted DNA from complex stool samples with the Bacterial DNA Extraction Kit, using the regular and rapid protocol on the MagPurix instrument, and with a market leading product. We compared the yield and quality of the isolated DNA, and the results of the subsequent NGS analysis.

Zinexts' purified DNA is perfectly suitable for NGS, where the downstream result is proven to be matching the market leading brands'.

High-quality DNA that is matching the market leading brands.

Exceptionally high DNA yields from Zinexts extractions, significantly outperforming the market leading brand.
